About

Frontend & Full-Stack Developer with **3+ years** of commercial experience, working in teams of various sizes (2–10), both remotely and onsite. Experienced in full-cycle product delivery from initial prototypes and API design to production-ready deployment with automated multichannel CI/CD.

Passionate about the creative side of the web: 2D animation, interactive UI design, and WebGL. I deeply enjoy making interfaces that feel smooth, dynamic, and expressive. And beyond my work, I'm building a personal brand by publishing small code and animation demos, along with technical articles on my [personal portfolio website](#).

Skills

Frontend: HTML5, CSS3, JavaScript / ES6+ (JS), TypeScript (TS), React, Next.js, Tailwind CSS, GSAP, Astro, i18next, Vite, Vitest, Jest.

Backend: Node.js, Express, Koa, PostgreSQL, Knex, MongoDB, Mongoose ODM, Yup, Telegram API.

CI/CD: Git, Github, GitHub Actions, Gitlab, Docker, Kubernetes (K8s).

AI Tools: GitHub Copilot, Cursor, Midjourney.

Other: FSD, SOLID, DRY, MERN, Jira, Agile / Scrum, Google App Script (GAS), Photoshop, After Effects, Illustrator, Figma.

Experience

[ELSE ACADEMY](#) | Oct 2024 – Present

- Contributed to frontend development of a new mentoring platform, setting up project structure, reusable modules, and types.
- Built responsive UI components, forms, and animations, improving usability and raising engagement in test sessions **by 17%**.
- Configured Vite builds, reducing local build times **by 34%** compared to Webpack.

Technologies: TypeScript, React 18+, Material-UI, Vite, Framer Motion, AWS SNS, Yup, Jira, Scrum.

[VIRGINIA BEOWULF · ENGLISH STUDIES](#) | July 2023 – Sep 2024 (1 yr 2 mo)

- Led MVP development of an educational platform with web + Telegram interfaces, reaching **574 active users** in the first release.
- Designed and optimized APIs and frontend rendering, cutting initial load time **by 19%** and reducing runtime errors **by 21%**.
- Mentored **2** junior developers, both promoted to Junior+ within a year.
- Automated admin workflows with Google Apps Script, saving **several hours a week**.

Technologies: TypeScript, Next.js, Node.js, PostgreSQL, Docker, Tailwind, Effector, Yup, Knex, Github Actions, Google App Script.

[STATE HISTORICAL MUSEUM](#) | May 2022 – June 2023 (1 yr 1 mo)

- Migrated legacy UI from jQuery to React, reducing script size **by 40%** and improving maintainability.
- Integrated headless WordPress with React, enabling multi-language rollout for **10k+ monthly visitors**.
- Improved accessibility and performance, raising Lighthouse accessibility score from **74 to 81** and reducing load time **by 1.5s**.

Technologies: React, JavaScript, Bootstrap, WordPress (Headless), jQuery, Webpack, i18next, Git, GitLab.

Education

FAR EAST FEDERAL UNIVERSITY | VLADIVOSTOK, RUSSIA – Bachelor's degree in Information Systems and Technologies (2015-2019)

FAR EAST FEDERAL UNIVERSITY | VLADIVOSTOK, RUSSIA – Master's degree in Computer and Information Sciences (2019-2021)
